lnternational Google Trends Dataset: Country, Region and Interest over Time Analysis

Country Name is Austria Top Terms Rank is in range [0, 25] Top Rising Term Rank is in range [0, 25] Refresh Date is on 2022/06/21 Top Terms Week is in the last 6 months Top Term is Heidi Klum

Top Terms and Top Rising Terms Analysis

Per Refresh Date, Country Name, Region Name

Important notes:

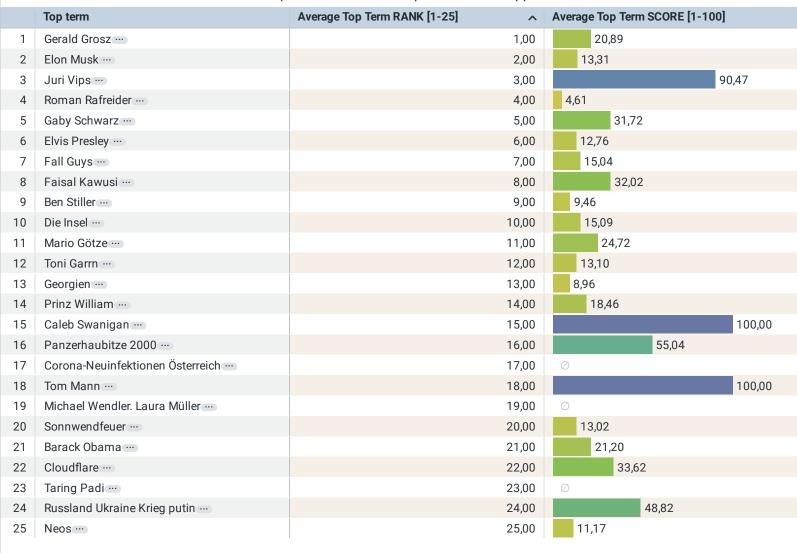

- if we select values within the global filters Country Name and Region Name, we will get the calculation of the **Average**% indicators for the selected date value within the global filter Refresh Date (this is the refresh_date attribute in the raw dataset for Top 25 Terms and Top 25 Rising Terms)
- if we select date ranges in the global filter Refresh Date, we will get multiple search terms with the same ranks within the selected date range. Hence, we can use the global filters Top Term Rank and Top Rising Term Rank to check, e.g. only terms that have Rank = 1 in the selected range

Top research questions answered with the tiles below:

- Q1: Which top terms/top rising terms have the highest average rank, and what is their average score for selected refresh_date, country, and region?
- Q2: Which top terms are trending in DACH (Countries, and how is this trend in all other countries?
- Q3: Which top terms are trending in a specific region, and how is their average score differing from region to region?
- **Q4:** How is interest over time evolving for the selected top term?
- Q5: How did interest over time evolve in the past three years for the selected top term (year-over-year analysis for catching the seasonal patterns)?
